"Learning Activity Packages"

Instructors dream of having the time and opportunity to enhance their teaching techniques by developing supportive instructional materials. A first step toward fulfilling this dream has been taken with the completion and presentation of this year-long project. Twelve learning activity packages (LAPs) have been developed for use in health occupations programs. These LAPs represent many hours of composing, compiling, pasting, cutting, editing, and revising by the four consultant writers. Their dedication, individuality, and expertise are reflected in the final products. Topics were chosen for development by the task force which were versatile and could be utilized by most health occupation instructors. It is the goal of all of the members of the task force that you as a health career educator will utilize these LAPs in the various ways suggested and perchance be motivated to develop more topics of your own following a similar format.

Without the cooperation, sharing, caring, and quality support of the following people and agencies, this project would not have been successful; the warmest of "thank you's" to:

The Project Coordinator, Vivian Bender

The Consultant Authors, Kris Hime, Carolyn Lee, Lillian Runge, and Pamela Stark

The Health Consultant, Beverly Campbell, State Department of Education

The Office of the Riverside County Superintendent of Schools, Don Kenny, Superintendent

Debi Behrens, Secretary, ROP

Ginger Davis, Teacher's Aide, ROP

Ray House, Director, ROP

Terry Lewis, Printing, ROP

Don Marshall, Media Technician, ROP
